The Ancient Art of Cupping

Lecture and
Demonstrations by
Susan Johnson, L.Ac.

8 DVD set features patterns, theory, tips & demonstrations

The ancient art of cupping is an extraordinary tool used by healers and lay people in many cultures. Cupping draws toxin buildup or muscle spasm out of the deeper tissues of the body, while simultaneously pulling in freshly oxygenated blood. In cases of blockage or stagnation, the proper use of cupping can reduce a patient's healing time by weeks and even months. This 8 DVD set provides very detailed instruction in the many uses of cupping techniques, including when, where, how and why we use cupping, as well as printable versions of ten different cupping patterns and a color brochure for patients. View close-up digital video cupping demonstrations and learn how to radically transform your practice.
